# BONA PURE ESD

## RENEWING RESILIENT ESD FLOORS

### BONA PURE ESD RANGE

Bona Pure ESD restores resilient surfaces to European ESD standards with high durability and resistance to chemicals and common disinfectants. The range includes clear as well as colour options.

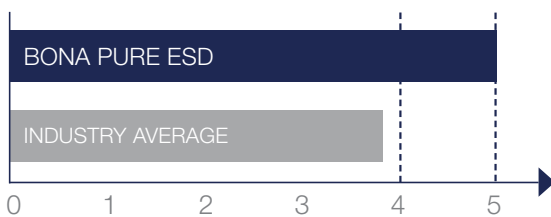

### MEETING HIGH REQUIREMENTS

This product meets the requirements for discharge according to the standard EN 61340-5-1 (07.2017) and (resistance <math>< 10^6 \text{ Ohm}</math>) and ANSI 20.20:2014 norms.

### CHEMICAL RESISTANCE

Disinfectants

### BONA PURE ESD CLEAR

Durable, highly transparent top coat able to dissipate static electricity and transport it to ground.

- Keeps the original look of the floor
- Fast curing 12 hours
- European ESD standard

### BONA PURE ESD VIBRANT

Durable top coat for Bona Pure colour ESD coated surfaces, able to dissipate static electricity and transport it to ground.

- Top coat for Bona Pure Colour ESD
- Fast curing 12 hours
- European ESD standard

### BONA PURE COLOUR ESD

Coloured base paint available in Pigeon Blue, Pastel Turquoise, and Agate Grey.

- Exceptional coverage
- Next coat in less than 2 hours
- European ESD standard
