Bona CombiEdge UX – Designed with your Experience in Mind

Bona[®]

Designed with your experience in mind

- ✓ ENHANCED USER EXPERIENCE
- ✓ VERSATILE COMPANION
- ✓ DEVELOPED WITH SAFETY IN FOCUS

Combining vast experience and modern technology, Bona is launching a cutting edge sanding experience for edges, stairs and other hard-to-reach areas.

Experience the new Bona CombiEdge UX – a compact and versatile edge sander designed with user comfort in focus.

Upgrade your sanding process with the Bona CombiEdge UX for enhanced performance, convenience, and control.

Bona **CombiEdge UX**

COMPACT AND VERSATILE

Its sleek, modern design and ergonomic handles ensure a comfortable and efficient sanding experience. Ideal to pair up with Bona FlexiSand – giving an optimal set up for all your day-to-day projects. With two arms of different length and weighing only 8.3 kg it is ideal to cover smaller areas

where buffers and belt sanders struggles. Since the Bona FlexiSand covers most traditional edge sanding, Bona CombiEdge UX becomes the ideal partner as it effectively sands the minuscule and hard to reach areas left.

ENHANCED USER EXPERIENCE

Always close to the reality of the flooring contractor, we have been listening to our user's experiences. With these insights, we are now launching a user-

friendly solution enhanced with features for a better user experience.

NEW COMFORTABLE HANDLE

The newly designed ergonomic handles offer maximum comfort, especially during extended use. With an improved grip and a natural working position, the machine becomes easier to maneuver, reducing strain on hands, wrists, and shoulders. Ideal for professionals and long work sessions.

ENHANCED
ERGONOMIC

DISPLAY WITH VALUABLE INSIGHTS

An integrated, backlit multimeter display provides vital operational information at a glance. Instantly view voltage, frequency, and hours of operation. Stay in control, prevent downtime, and ensure optimal performance – all from one clear and easy-to-read screen.

MULTIMETER
DISPLAY

BETTER FLOOR VISIBILITY

A new angled LED light illuminates the floor with a wide, powerful beam. The strong LED ensures excellent visibility of the work surface, helping you catch every detail in low-light conditions. Achieve better precision and a flawless finish, wherever you're working.

IMPROVED
LED LIGHT

LONG-
LASTING
COMFORT

DEVELOPED WITH **SAFETY IN FOCUS**

With Bona CombiEdge UX, we have developed a solution with the health and safety of the contractor in focus. The double click start system prevents involuntary starts and Bona DCS compatibility

ensures a healthier working environment. Bona CombiEdge UX, a user-friendly and safe sanding solution that is powerful yet easy. Helping you to create the perfect floor surface.

SAFE DOUBLE CLICK START SYSTEM

The double-click start system adds an extra layer of safety by preventing unintentional activation. Simply press twice to start – intuitive for the user, but secure

against accidental operation. A smart safety feature designed for real-world job sites.

A **VERSATILE** COMPANION

ONE MACHINE, TWO ARMS

The short arm is perfect for normal usage, whereas the long arm enables you to reach difficult areas such as under staircases, under radiators or deep toe kick.

COMPATIBLE DISCS

Both Bona CombiEdge UX and Bona FlexiSand using same 150 mm discs. Only one disc size needed for a job.

SIMPLER STAIR SANDING

Experience simple and secure stair sanding with the Bona CombiEdge UX Stair Support. An attachment for making sanding of stairs easier by creating stability support.

EFFICIENT DUST PICKUP

The off-centred placement of the sanding discs, together with increased space between sanding discs and chassis, and dust air flow optimization, leads to more efficient dust pickup. Ready to attach to a Bona DCS machine for a dust free sanding experience.

MACHINE RANGE FOR ALL CHALLENGES

Bona provides a comprehensive range of professional machines designed to handle every aspect of floor renovation. Whether you're working on large surfaces, stairs, or hard-to-reach areas, Bona has the perfect solution. Additionally, our extensive selection of Bona DCS machines ensures a seamless, dust-free sanding experience.
