

Bona Net Ceramic

Technical data sheet

Bona Net Ceramic is designed for medium and fine sanding or the removal of joint filler, such as Mix & Fill Plus, with minimal risk of clogging. The special net structure enables dust free sanding, maintaining the highest abrasive performance. The ceramic grain provides the highest removal rate and very long lifetime of the abrasive.

The Bona Net Ceramic is mainly intended to be used for orbital or rotary sanders, such as Supraflex SE 14-2 or similar. It can also be used attached to Bona Power Drive or Quattro Disc for medium or fine sanding or removal of joint filler.

- Minimal clogging
- Good dust extraction
- Very high removal rate
- Independent on machine hole system

Technical data

Grit type:	Ceramic aluminium oxide
Grit range:	80, 100, 120
Size:	150 mm, 178mm
Backing:	Knitted fabric
Coating:	Electrostatic
Bonding:	Resin over resin

Note: It is not recommended to use the Bona Net Ceramic directly on the Power Drive or Quattro Disc. Always use intermediate pads in between to ensure as smooth a cut as possible.

Important notes
