

Bona Hard-Surface Floor Cleaner for Mopping Robots

Boost the cleaning power of your machine

Bona Hard-Surface Floor Cleaner for Mopping Robots is a specially formulated solution designed for use with most mopping robots and mopping vacuums to boost cleaning performance. The unique concentrated formula, with plant-derived ingredients, is infused with essential oils of lemon & mint for a fresh scent. Developed for easy and effective cleaning of sealed hard-surfaces including ceramic tiles, laminate, linoleum, vinyl, and sealed natural stone, to leave your floors clean and beautiful. The rinse-free, streak-free formula cleans hard-surface floors effectively by removing dust, dirt and grime. Love your floors with Bona. GREENGUARD Gold certified to ensure low indoor emissions.

- Suitable for most mopping robots and upright machines (VacMop) to boost cleaning performance.
- pH balanced, suitable for all sealed hard-surface floors.
- Plant based formula with greater than 90% bio-based contents*.
- Fast drying, residue & streak free.

Bona Hard-Surface Floor Cleaner for Mopping Robots

Boost the cleaning power of your machine

DIRECTIONS FOR USE

Bona Hard-Surface Floor Cleaner for Mopping Robots is a concentrate and must first be diluted with water prior to adding to your mopping robot's tank.

It is a good idea to prepare a larger quantity in advance, depending on the quantity of cleaner you wish to prepare, 1 teaspoon (5ml) should be added to every 100ml of water, so for example 3 teaspoons (15ml) should be added to 300 ml of water. Dilute only the quantity of cleaner that will be used within one month.

Do not exceed the stated dosage, it will not improve the cleaning effect and may result in excessive foaming and could result in streaking.

Add the diluted cleaner to your mopping robot's clean water tank and run the normal mopping cycle according to your mopping robot's manufacturer's instructions.

Use only with water at room temperature, if your machine has the facility to warm the cleaning water this must not be used.

If there are adjacent areas of varnished, waxed, or oiled wood floors that you also wish to clean at the same time, it is safe to use Bona Hard-Surface Floor Cleaner on those surfaces also.

IMPORTANT

The user is responsible for establishing that the use of this product complies with your mopping robot's manufacturers recommendations. Bona takes no responsibility for failure to follow those recommendations.
