

Bona Oiled Wood Floor Refresher

For oiled wood floors

Extends the life of your oiled wood floor

Apply with the
Bona Microfiber
Applicator Pad

Bona Oiled Wood Floor Refresher is a ready to use maintenance product that makes the maintenance of oiled wood floors easy. Simply pour onto cleaned surface, distribute evenly, and let dry. The product requires no machine buffing and is ready for light foot traffic in as little as 1-2 hours after application.

- Restores dry, oiled wood floors*
- Retains the matt appearance of oiled wood
- Contains linseed oil
- Improves resistance to water and spills

**severely dry/damaged oiled floors may require re-oiling prior to use of this product*

Disposal:	Containers with a minimal amount of dried material may be recycled. Liquid waste must be disposed of at an approved waste disposal facility - do not pour down drains or sewers. Follow all local waste regulations.
Sizes:	1L
Certification:	GREENGUARD

PREPARATION

Remove loose dirt and grit from your floor. Clean floor thoroughly with Bona Wood Floor Cleaner or Bona OxyPower Wood Floor Deep Cleaner (sold only in selected markets) and let dry. It is important that the floor is thoroughly clean as otherwise the dirt will be sealed onto the floor by the coat of Refresher and an uneven, unsightly appearance will result.

IMPORTANT! Do not use on any floor that has been treated with wax or Hard wax oil. Wax residues will prevent proper adhesion of Bona Oiled Wood Floor Refresher to the floor. If uncertain, perform a small test before use to ensure desired result.

Shake bottle thoroughly before use and apply at normal room temperature, 18-25°C.

INSTRUCTIONS FOR USE

1. Pour a wide line of Bona Wood Floor Refresher on a small section of the floor.
2. Immediately spread the product over the section using a Bona Microfiber Applicator Pad.
3. Complete section by smoothing with the applicator pad in the direction of the wood.
4. Continue section by section until the entire floor has been treated.

The floor can be walked on after 2 hours but avoid heavy traffic and replacement of furniture and rugs until after the first 12 hours.

MAINTENANCE

Regularly clean your oiled wood floors with Bona Oiled Wood Floor Cleaner and a Bona Microfiber Cleaning Pad. When the floor is starting to show signs of wear and needs freshening up, clean and apply a new layer of Bona Oiled Wood Floor Refresher. If at any time you wish to remove Bona Oiled Wood Floor Refresher from your floor, you can do so using Bona Polish Remover.
